JUSTIFICATION:

Based on survey information, a guideline harvest objective of 8–9 points (male goat=1 point & female goat=2 points) was established for the middle portion of the Takshanuk Mountain Range. As of Monday, October 3, 2016, 6 goats have been harvested in this area, including 4 male goats (4 points) and 2 female goats (4 points) for a total of 8 points. Due to the vulnerability of goats in this area to additional harvest, and because the guideline harvest level has been met, an emergency order (01-10-16) is being issued to close the goat hunting season in the middle portion of the Takshanuk Mountains.
